Vip Living Program

LOCAL ORIENTATION – HOME FINDING – MOVE IN COORDINATION – 3 MONTHS UNLIMITED
SETTLING IN SERVICES – SCHOOL SEARCH – 3 MONTHS HELP LINE SUPPORT

We understand that executives and their families require personal, flawless service in their relocation. That's why Nimmersion is proud to offer our VIP Living service, providing an exceptional level of personal attention customized to the needs of the entire family.

When the family moves forward, the executive can move forward. Relocating executives impacts the entire family. One of the main goals of the VIP Living service is to ensure family happiness and to make sure everyone adapts well – setting the executive up for success. We do that by alleviating the pain points with world-class service all the way through.

VIP Living is our most comprehensive service. It includes:

Local Orientation

We provide executives a personal relocation consultant who plans a pre-visit tour based on their interests, needs and what matters most to them. We offer local knowledge to help the family know what to expect and what to look for as they plan their move to Sweden. We also help them understand neighborhoods, areas for living, schools, recreational facilities, shopping, and anything else that may be helpful. We assist them in comprehending neighborhoods, suitable living areas, schools, recreational facilities, shopping options, and any other information that may be beneficial to the family. Once the employee is physically settled, we assist them and their families in making the transition to Sweden as smooth as possible. Whether it's questions about traffic rules or how to find suitable children's activities, we provide the right information and guidance to help everyone successfully adjust to their new city.

Home Finding

Our relocation consultants find out important needs executives and their families may have when searching for a home. We source appropriate housing options that align with the budget and provide an organized itinerary a day before the scheduled viewings. Not only do we accompany your employee during property visits, we negotiate terms and set up the lease agreement and take charge of the entire lease process, ensuring that all lease documents are made available in English. Additionally, we help you manage initial payments, such as security deposits and rents, oversee any necessary pre-move-in refurbishments, conduct detailed move-in inspections, facilitate the setup of essential utilities, and offer guidance in procuring renter's insurance coverage.

Move In Coordination

Before moving in, Nimmersion will conduct a superficial inspection of the property to ensure the property's condition is well-documented. This helps avoid extra costs and confusion over damages when it comes time to move out. Additionally, we provide a tour of the laundry facilities, explain the mail handling, assist with name placements on the door, and instruct on where to dispose of trash. We will also arrange for a transfer of pre-existing utilities, such as electricity, water, gas, sewage, and internet connection.

Settling In Services

We handle the intricacies of local registration, assisting your employees in obtaining essential Swedish documents, such as a social security number, an ID card, and bank-account setup. Our comprehensive services cover guidance on civic registration, utilities setup, property insurance, and provide insights into the Swedish healthcare system. We address changes with authorities and register with the social welfare insurance office. Plus, we provide information on where your talents can find doctors, shopping venues, places of worship, and specialty foods. To ensure they're well-connected, we introduce them to relevant networking groups, promoting a smooth cultural assimilation. This program includes three months of unlimited Settling In Service.
